

Creativity Matters was started by Kent based artist Christine Thomas, who has extensive experience of working with community groups, schools and local government and education authorities. We provide creative workshops for schools and community groups, as well as community consultation and large scale art commission co-ordination for local authorities. Our workshops produce high quality work that will last, exceeding the expectations of our participants, embedding art skills and leaving a legacy of achievement.

Art projects

- murals
- ceramics
- mosaics
- banners
- soft sculpture
- silk painting,
- multi media
- windsocks
- carnival artefacts

Creativity Matters

undertakes projects nation-wide.
